What's your plan if D.C. is locked down and flights are cancelled? Hope you all have A B C plans for surviving a trip back to where we you came from...

9 ▼ The US Military has been ordering TONS of the newer M72 versions (M72A7?) for use in our current wars. I'm not saying someone has one but the idea a soldier might have managed to bring back one still armed with a live round isn't exactly unlikely.

Of all the heavy weapons available its the one that is small enough I'd believe someone had a live one. Sense they are disposable a soldier could just say he threw the empty tube away in the heat of combat, but it truth he never used it. If he has a reliable way to smuggle it back home and is smart enough not to brag he has it.

Not that a handful of them would do much damage, but can you imagine being a police force and you break out your Bearcats to stop rioting armed Patriots... and poof someone puts a hole in the side of one with an anti tank missile. Me, I'd shit a gold brick, sell it, and move to somewhere with nice beaches. Fights over.

7 Came to say.... There is a real beauty in this the swamp has had months to open up a can of Act Right™ but they have no interest in stopping the steal or ending corruption! These traitors should' ' out to death for the Omnibus bill alone, add the slap in the face to the American people that was the

stimulus bill and they don't deserve to live. President Trump has shown us what could be accomplished in four years even with tremendous resistance from the swamp!!!

if the president wants to pardon individual senators or members of congress that's in his wise hands. I think it's time for a purge but I've probably been pushed beyond the point of reason.

Yes fren; you are 100% correct and true in what you say.

NO; you are absolutely NOT "past the point of reason" - to the absolute contrary; you are 1,000% spot on.

They are evil, satanic, pedophile, communist demons straight from hell.

We are Children of God.

All we want to do is live our lives, raise our families, and do our thing in peace.

They absolutely, positively, utterly can NOT allow that to happen because they are sick, drunk, addled and infected with this satanic urge to rule over - to have DOMINION OVER - everyone else.

I've been reading, researching, cogitating, writing, and just thrown myself deeply into politics for decades and the result of my years of labor is;

Communists are not human and need to be exterminated from the face of the earth before they destroy all of humanity.

3 ▼ I thought about this for a while the other night. Cruz had his SCOTUS case dismissed for bullshit reasons. Until such time as something actionable is put in front of him (i.e. in the Senate) then there isn't much else he has any authority to do. Except send stern tweets.

It's already established that the states we're concerned about don't give a shit about due process, including ignoring direct orders from SCOTUS. Cruz gave it a shot with his case. It was dismissed. There's nothing he's got to overturn directly in Texas, and nothing he can do directly on behalf of Texas yet (the Governor probably could, but that's different).

Once it gets to the floor in the Senate, he actually has some ability to influence what happens next. Yeah, it sucks that it was implied it would take 10 days (WTF is all the affidavits and other evidence gathered, then?), but how could he initiate something before it got there (Laches, etc.)? How else could he use the Senate process to build the appropriate case to dismiss the outcome?

Personally, I don't like the suggested approach, but I kind of understand why it was put forward. I don't know enough about the internal processes of Congress to know if there's a better way that Cruz can initiate.

No I'm tired of people larping with memes giving people confirmation bias that something will happen but it won't. Until people on here realize what actually needs to be done we as a group will never get to the point of real effective action.

The point is that when I see memes and post like this it reminds me that there are people that want to do something more than what we have done but there is no serious discussion about it.

Your comment proves this. Instead of discussing the means, merits and ways of actually making a difference with forceful protest people like you are mad that people like me are saying it doesn't matter unless we put our money where our mouths are.

We need to make sure they understand the choice first.

The total lack of riots on our part does not indicate that they'll be lynched.

We've asked nicely. We've supported those who promised they would help. We've protested peacefully.

We've tried to send our own people. We've told them, in no uncertain terms. We've yelled at them.

This is their last chance to listen.

14 ▼ Agree. I wrote this a few days ago and got downvotes Why?

<https://thedonald.win/p/11ROLUXomN/we-need-to-scare-our-legislators/>

WE Need to scare them. This may be unpopular, but I think all our letters and calls starting now need to threaten our gope legislators. Make it us they're scared of. Make them fear for their lives and families and property if they go along with the steal. Phrase it in a way that is slightly indirect so you don't get in trouble. I hear people say "wow the senators and reps objecting - that takes balls!" Make it so that supporting the fraud is what's risky. Let these fuckers know they'll never walk the street in peace if they fuck us over.

5 Pence cannot be trusted. Cruz, obviously, cannot be trusted. Most of the GOP, same deal.

I'm not saying they won't do the right thing, just that they won't do it out of honor to their oaths, respect for the Constitution, obligation to faithfully represent the will of their constituents, loyalty to our President, or any commitment to serve their Country.

None of that will matter one tiny bit.

They will act purely out of their own self-interest.

There's a reason why Trump asked patriots to convene on DC.

3 Third Option: KICK THE CAN DOWN THE ROAD and wait for patriots to have to go home to their jobs/businesses (if y'all are lucky enough to still have one) and families.

Congress is a pro at this. They procrastinate like it's their job. Of course, that is when they're not busy lining their own pockets.

All their life, they will be known as traitors like Liz Cheney.
